This catalogue represents the last word in Abrasives, Marble and Granite Polishing Supplies, Machinery, and Granite Cutters' Tools.

Twenty-four years ago the founder of this business pledged himself to supply the stone trade with only the best abrasives, machinery, supplies and tools that could be produced and at current prices. This pledge of quality will never be broken, you can absolutely rely upon that promise.

A glance through the catalogue will quickly convince you of the time and thought given in preparing same for your benefit.

Just a line saying you received the catalogue in good condition, and any constructive comments will certainly be much appreciated.

A return envelope is enclosed for this purpose.
